

SUBTRAN

★ **DISTRIBUTION**
CRYOSTAR

Technical Index

★ Pump ID Meaning

SUBTRAN 2 x 180 x 5400
(model) (stages) (impeller diameter in mm) (speed in rpm)

Applications	Submerged pump for liquid transfer, LNG stations, micro-bulk delivery
Liquids pumped	LIN, LAR, LNG
Drive type	Direct submerged motor
Design pressure	20 bar / 290 PSI

★ Test Procedure

Each pump manufactured by CRYO-STAR is mechanically and cryogenically tested prior to shipment in our state-of-the-art testing facility to ensure that performance meets customer specification. The precision of measuring devices provides essential results: differential head, flow rate, seal gas consumption, pump efficiency, NPSH, noise and vibration levels – all documented and submitted to the customer.

★ Quality

Designed in compliance with guidelines like IGC 11/82 norm

★ Performance

★ Features

- 1 Balanced and machined inducer, allowing lowest possible NPSH requirement, throughout the performance curve.
 - 2 High efficiency closed impellers made from “lost wax” casting technology
 - 3 Optimal shaped pump casing with machined axial diffuser
 - 4 Aluminium cold end for light weight design
 - 5 Special submerged electric motor cooled by pumped fluid
 - 6 Motor bearings lubricated by the process fluid resulting in a “zero-maintenance” design
- ★ Dimensionally designed to fit interchangeably into existing similar sump installations
 - ★ Immediate start / stop of the pump with minimal cool down time
 - ★ Robust sealless design for extended service life
 - ★ Very low noise level thanks to the submerged design
